simplifying life through technology and comfort

Congratulations, and thank you for purchasing from Enouvation!

Before getting started, please take the time to read the instructions and safety warnings. Your safety is extremely important to us.

Power Packs have become mainstream household items. They are not toys and can be extremely dangerous if misused, damaged, or compromised.

We've named this pack "Enouvation E10."

② Set Up a Location

Now select a location for the named pack.

You can select from list or customize by selecting OTHER.

We've named our location "John's Recliner."

When selecting a location, an orange icon will appear.

When a location is customized, it will appear next to OTHER in the list.

Confirm name is correct and click FINISH.

Your E10 is now ready.

The Pack name and location will appear on the screen.

If you have more than one Pack, they will be listed by location on this screen.

To delete a pack, swipe left and tap DELETE. To reconfigure a pack, start over from step 1.

The homescreen shows your current capacity and voltage.

You can also turn the Pack ON and OFF.

3 View/Manage Charging History

This menu allows you to see Charging History.

The most recent charge will be listed at the top.

To delete an entry, swipe to the left to reveal a delete button. Tap delete to remove it from the list.
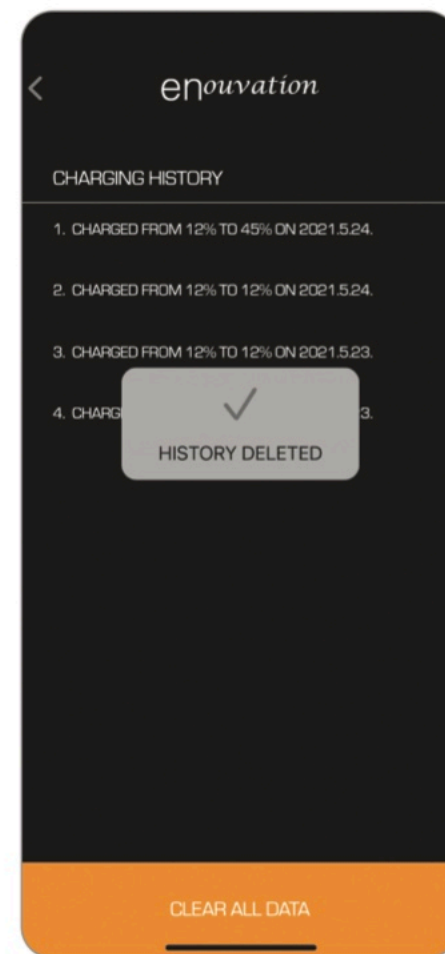

You can clear all data by tapping CLEAR ALL DATA from the bottom of the screen.

History is deleted. New data will appear when you finish your next recharge only AFTER you disconnect from the Enouvation charger.

REMINDER: Only use the Enouvation charger when recharging.

# ④ Set Notifications for Low Power Alerts

Screen 1:

enouvation

SHUT OFF ⬤

REMAINING CAPACITY
100%

POWER PACK VOLTAGE
28.91V

Tap the bell icon. This App alert will notify you when the Pack has reached the selected charge level.

Screen 2:

enouvation

LOW POWER ALERT SETTINGS

NOTIFY AT 90% POWER ▼ ⬤

LOW POWER ALERTS: WHEN ACTIVATED, THE APP WILL ALERT YOU WHEN YOUR POWER PACK IS RUNNING LOW BASED ON THE POWER LEVELS YOU SET HERE. WHEN SET AT 20% WITH NOTIFICATIONS ON, YOU WILL RECEIVE AN ALERT WHEN YOUR APP OPENS THAT YOUR POWER PACK NEEDS TO BE RECHARGED.

Select the orange arrow.

Screen 3:

Notify at 40% Power

Notify at 50% Power

Notify at 60% Power

Notify at 70% Power

Notify at 80% Power

Notify at 90% Power

Cancel

Select the notification level from the list.

We've selected "Notify at 20% Power."

Screen 4:

enouvation

LOW POWER ALERT SETTINGS

NOTIFY AT 20% POWER ▼ ⬤

LOW POWER ALERTS: WHEN ACTIVATED, THE APP WILL ALERT YOU WHEN YOUR POWER PACK IS RUNNING LOW BASED ON THE POWER LEVELS YOU SET HERE. WHEN SET AT 20% WITH NOTIFICATIONS ON, YOU WILL RECEIVE AN ALERT WHEN YOUR APP OPENS THAT YOUR POWER PACK NEEDS TO BE RECHARGED.

The selected notification level will appear on the menu bar.

The initial reminder will display only when the App is opened.

⑤ Turn On/Off
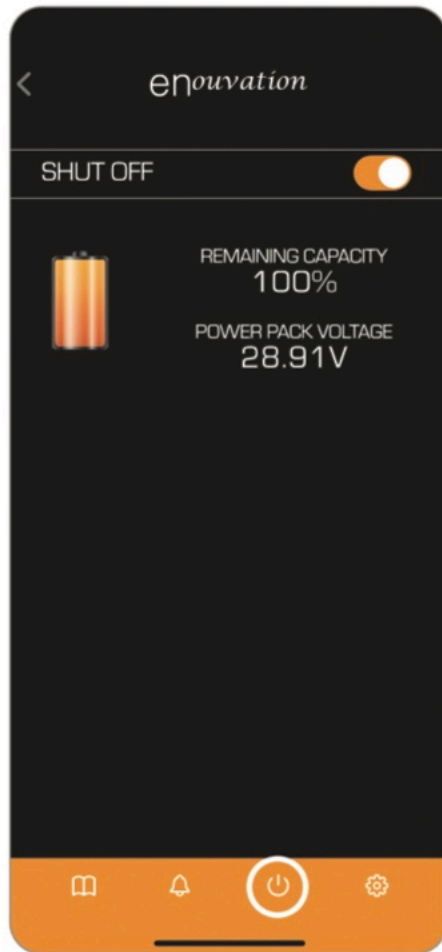

The Shut Off setting allows you to shut down the Power Pack.
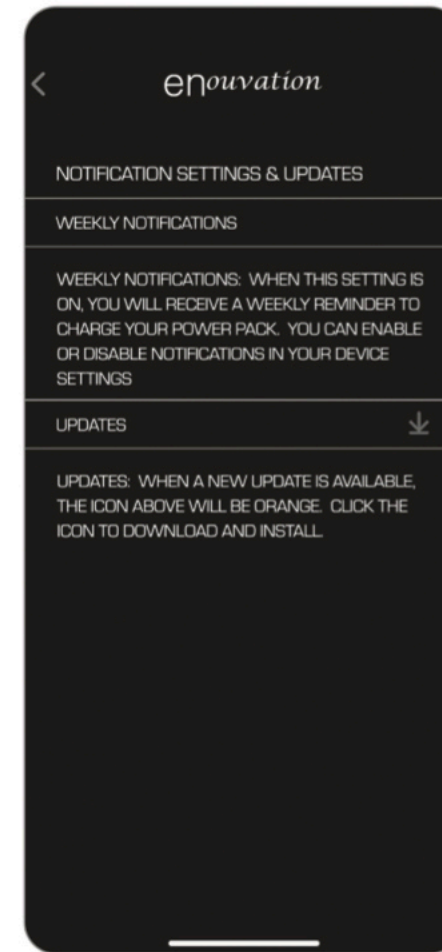

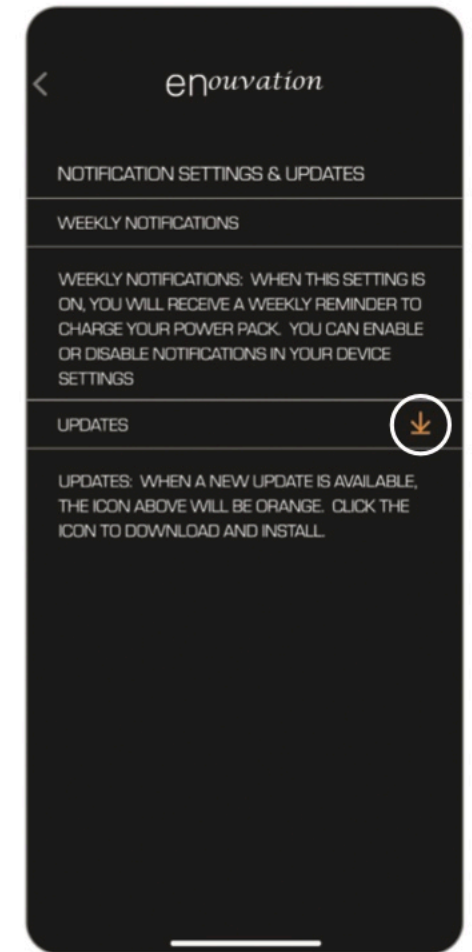

Yes, this is a duplicate area to power down your Pack.

To turn OFF, swipe the button left.

To turn ON, swipe right.

⑥ Manage Notifications

Tap the gear icon to manage notification settings.

⑦ Check/Update Firmware

A weekly notification will remind you to charge your pack. Turn ON/OFF notifications in your device settings.

Firmware updates can be downloaded from this menu when they become available.

Updates can be downloaded if the download icon glows orange.
